

The Nose-Heavy Plane

- Fold your paper in half and re-open.
- Turn down the top two corners so that they meet on the centre-fold.
- Fold the outer two corners down to meet at the centre-fold.
- Fold down the top point so that it touches the bottom of the page.
- Then turn it back up on itself.
- Next fold down the tip so that it meets the bottom of the fold.
- Fold the plane in half.
- Turn back the wing on top about an inch from the folded side.
- Flip the plane over and turn back the wing on the other side.

Remember to post a picture or video of you flying your plane with the hashtag [#handleypagechallenge](#) and let us know how far it flew to be in with a chance of winning a prize!

The Starwing

- Fold your page in half and re-open.
- Fold down the top two corners as shown.
- Fold the page down horizontally so that point A touches point B.
- Fold down the top corners so that they touch the bottom of the page.
- Fold the plane in half.
- With the plane in this position, fold back the top flap about an inch from the left side to create the first wing.
- Flip over the plane and fold back the wing on the other side.
- Finally, fold up the end of each wing by about an inch.

The Sea Glider

- Fold and cut your paper to make a square
- Fold the longest edge back. Then fold the whole triangle in half.
- Fold down the top wing by about an inch, as shown in the image.
- Flip the plane over and fold down the wing on the other side in the same way.
- Now take the wing and fold it downwards across the dotted line so that the wing hangs below the body of the plane.
- Flip over your plane and repeat on the other side.
- Open out the two folded down wings so that your Sea Glider can fly!

The Basic Dart

- Fold your paper vertically and then unfold.
- Fold down the top two corners to meet on the centre fold.
- Fold each side diagonally to meet on the centre fold.
- Fold your plane in half.
- Fold back the wing so that the top of the wing is parallel with the base of the plane.
- Flip over your plane and repeat the step with the other wing.
- Open out your wings slightly and hold your plane by its body. See how it flies!
